

IMPORTANT INFORMATION / CONSIDERATIONS WHEN RECEIVING FINANCIAL AID

Confidentiality:

Confidentiality is critically important. You shall not share the fact that you are applying or receiving financial aid. Also, you shall not communicate the specifics about the amount of your award. Please know that if it is perceived that you have shared this confidential information the application process will be terminated and any award given will be withdrawn. You are welcome to share that you are aware that PA offers financial aid and direct them to the PA website and the Admission page.

Communication:

Most all other communication regarding financial aid will be delivered by email. Thus, it is critically important that you provide SSS and PA with any changes in your email address. Any questions regarding your application file and required documents should be directed to SSS.

Payments:

I understand that I must be current and remain current on all school financial obligations and that failing to do so will jeopardize the receipt of current and/or future aid, and may result in financial penalties that will be added to my current obligations. I understand that financial aid may be withdrawn if satisfactory academic standing is not maintained by my child and constructive community citizenship is not maintained by me or my child. If my household income changes or I acquire new assets valued at more than \$10,000 (a car is an example) I agree to notify Pulaski Academy's Financial Aid office.

Renewal:

I understand that financial aid is awarded on a year-to-year basis and that an application for aid must be submitted to SSS by February 1st of each school year. Receiving financial aid in any school year shall not obligate the school to provide aid to said student in any succeeding year.

I understand that I am obligated to notify the SSS of any change of address, telephone numbers, cellular phone numbers, and especially, email addresses. I am officially enrolled for the next school year. However, I understand that aid may not be awarded to students who are accepted conditionally or on probation.

Other Considerations:

The student receiving aid shall be subject in all respects to the regulatory and administrative policies of the school. If, in the opinion of the school administration, the student's conduct at school or away from school is unacceptable to the school administration, or the student's academic progress is unsatisfactory, the student may forfeit his/her financial aid award.

A positive working relationship between faculty/administration and parents/guardians is crucial for a student's successful educational experience. If such a relationship cannot be maintained, the PA reserves the right to end its relationship with the family and rescind the remaining portion of his/her financial aid award.
