

COVID-19 Response Coordinator (Point of Contact):

We have arranged to have our own COVID-19 Response Coordinator (Point of Contact) whose sole responsibility is to serve as our liaison to the Arkansas Department of Health and to aid in contact tracing for COVID-19 cases in the PA Community. Shana Tedder, RN, will work closely with our on campus school nurses, Elizabeth Kimball and Kristy Bale, in coordinating the school's response. We are very pleased to have Nurse Tedder on call at all times so that our response is as rapid and efficient as possible. With regard to responding to confirmed or suspected COVID-19 cases in our school community, the Point of Contact (POC) has the final decision regarding the return to campus after a positive case or exposure.
